

2027 Kodiak Wildlife & *Brown Bears of the Katmai Coast* PHOTOGRAPHY WORKSHOP BY PRIVATE YACHT

July 31–August 9, 2027 • 10 Days / 9 Nights • Limited to 8 Photographers • \$13,793 per person, double occupancy

Led by Cindy Goeddel & Bayliss Ward

ALL-INCLUSIVE WILDLIFE PHOTOGRAPHY WORKSHOP

Alaska delivers some of the most powerful wildlife photography in North America—brown bears fishing for salmon, mothers with cubs, whales, sea otters, puffins, eagles, and wild coastline in every direction.

Unlike lodge-based trips, our yacht-based workshop gives us proximity, flexibility, and more time in the field. We live aboard a privately chartered yacht and work the Katmai Coast, including Hallo Bay and Geographic Harbor, using a landing craft to reach productive shorelines with hands-on instruction throughout.
